SERVICES

Coastel manufactures cable and wire stripping equipment for the:

- ◆ Voice
- ◆ Video
- ◆ Data
- ◆ Signal
- ◆ Electronics Industries.

We design, engineer, and manufacture a wide variety of non standard and custom tools for difficult applications. Our highly skilled engineering and design team has the capability to address most requests for custom or special tooling, particularly for the difficult to strip semi rigid cable.

Coastel will design custom tools or machines to meet your specialized requirements. Contact us or send us a sample of the cable or wire you need stripped, — we will develop a solution.

We can also provide cable/wire processing solutions for your requirements with any of our standard engineered products and equipment.
